Page 1 of 1

Dear Dan:

The enclosed proposal sets forth our recommendations for the support to System 4. This proposal is based upon the established quantities of two Fly-Away Kits, one Depot Spares List, and two SLOE Lists each for Requirement 1 and Requirement 3. Copies of Equipment List AA, Fly-Away Kit, Equipment List BB, Depot Spares, and Equipment List CC, SLOE, are enclosed.

Cost estimates are enclosed reflecting the estimated costs for individual lists and a summary of the cost. The total estimated cost for the program is \$183,856.52; the fixed fee on this amount computed at 8.25% is \$15,168.16; and the total estimated cost, including fee, is \$199,024.68. Through Amendment No. 14 of the Contract, \$220,000.00 of cost is funded at preliminary estimate figures covering this work.

At the time of our "crash" delivery of two System 4's in September, 1957, we also sent forward a preliminary Fly-Away Kit and SLOE. As yet, we have not attempted to match those items to the items now set forth in our Fly-Away Kit and SLOE lists. We anticipate that when this reconciliation is accomplished it will reveal items still due to complete one deliverable Fly-Away Kit and SLOE list, as well as items that were delivered but do not now appear on our formal lists. The first type of item will be treated as shortages and shipped as soon as available. We will compile a list of items shipped but not covered by the present list and will submit a proposal for your approval.

We are going ahead with the procurement of long lead-time items as previously authorized, but will take no other action without your authorization.

Sincerely,

Handwritten signature

Dean
